

D2K.7 Official Pin List

Here's my "Master List" of pins...there are a few that I am missing. This was due to the fact that I either gave them away, traded them away, forgot to get them, or didn't know that I didn't have them.

Anyway, as always, please email me with additions, deletions, corrections, and any pins that I missed.

I will be putting together my "Pin Picks" for this year. This will consist of pins that I thought were particularly well designed and desirable. I will not be "dissing" any pins. However, I would be willing to give my honest opinion regarding a particular pin(s) and would also be happy to provide some constructive criticism to those who contact me off-line.

Finally, I have many traders but no time to list them right now...email me if you are looking for something in particular.

OK, Here goes:
